YEARLY STATUS REPORT - 2021-2022

Part A	
Data of the Institution	
1.Name of the Institution	CHIRALA ENGINEERING COLLEGE
• Name of the Head of the institution	Dr. P RAVIKUMAR
• Designation	Principal
• Does the institution function from its own campus?	Yes
• Phone no./Alternate phone no.	08331040588
• Mobile No:	8331040550
• Registered e-mail	principal@cecc.co.in
• Alternate e-mail	iqac@cecc.co.in
• Address	AKKAYAPALEM (VILLAGE) RAMAPURAMBEACH ROAD VETAPALEM (MANDAL), (PRAKASAM DIST)
• City/Town	CHIRALA
• State/UT	Andhra Pradesh
• Pin Code	523157
2.Institutional status	
• Affiliated / Constitution Colleges	JNTUK
• Type of Institution	Co-education
• Location	Rural

• Financial Status	**Self-financing**
• Name of the Affiliating University	**JNTU KAKINADA**
• Name of the IQAC Coordinator	**Mr. M BHUMI REDDY**
• Phone No.	**08331040558**
• Alternate phone No.	**08331040558**
• Mobile	**8331040546**
• IQAC e-mail address	**iqac.cecc@gmail.com**
• Alternate e-mail address	**principal@cecc.co.in**
3.Website address (Web link of the AQAR (Previous Academic Year)	https://www.cecc.co.in/iqac/aqar-reports/
4.Whether Academic Calendar prepared during the year?	**Yes**
• if yes, whether it is uploaded in the Institutional website Web link:	https://www.cecc.co.in/academics/college-calendar/

5.Accreditation Details

Cycle	Grade	CGPA	Year of Accreditation	Validity from	Validity to
Cycle 1	**B**	**2.08**	**2015**	**14/09/2015**	**13/09/2020**

6.Date of Establishment of IQAC	**17/04/2017**

7.Provide the list of funds by Central / State Government UGC/CSIR/DBT/ICMR/TEQIP/World Bank/CPE of UGC etc.,

Institutional/Department /Faculty	Scheme	Funding Agency	Year of award with duration	Amount
NIL	**NIL**	**NIL**	**NIL**	**NIL**

8.Whether composition of IQAC as per latest NAAC guidelines	**Yes**
• Upload latest notification of formation of IQAC	[View File](#)

9.No. of IQAC meetings held during the year	2	
• Were the minutes of IQAC meeting(s) and compliance to the decisions have been uploaded on the institutional website?	Yes	
• If No, please upload the minutes of the meeting(s) and Action Taken Report	View File	
10.Whether IQAC received funding from any of the funding agency to support its activities during the year?	No	
• If yes, mention the amount		

11.Significant contributions made by IQAC during the current year (maximum five bullets)

Strengthening the mechanism for addressing the needs of slow and advanced learners
Facilitating the collection of feedback and redressal of grievances
Improvement in Research and Development activities to provide solutions to the community problems.
Conducted courses to improve employability of students and improved campus placement

12.Plan of action chalked out by the IQAC in the beginning of the Academic year towards Quality Enhancement and the outcome achieved by the end of the Academic year

Plan of Action	Achievements/Outcomes
Strengthening student focused academic and skills development activities	Imroved academic result and skill development activities
Take initiative for Clean, Green and Polythene Free Campus.	All the students and staff are instructed and neccessary actions are taken to keep the campus clean and polythene free
Conducting courses to improve employability of students.	Through Soft skill courses Campus Placement is improved

13.Whether the AQAR was placed before	Yes

statutory body?

- Name of the statutory body

Name	Date of meeting(s)
Governing Body	10/11/2021

14.Whether institutional data submitted to AISHE

Year	Date of Submission
2022	30/12/2022

15.Multidisciplinary / interdisciplinary

Chirala Engineering college has continuously strived to supply tall quality instruction to create best engineers in Chirala region which Is found in Prakasam (Dt.), Andhra Pradesh. College supports a multidisciplinary approach in its scholastic as well as co-curricular exercises. A talk among the staff individuals were started on the key standards of NEP such as diversity for all educational modules and instructional method with technological developments in educating and learning, empowering consistent choice making and advancement, basic considering, and imagination. Understudies are empowered to undergo minor/major projects within the Multidisciplinary/ Interdisciplinary mode by defining groups from distinctive courses. Understudies are too empowered to define groups from distinctive disciplines to take part in different occasions like Hackathons etc. college has given seriously trainings to the understudies to meet mechanical measures. so, It can be said that our college is proactively working towards execution of the proposals given within the NEP

16.Academic bank of credits (ABC):

An 'Academic Bank of Credit' (ABC) that stores credit gained by the student 'digitally' shall be initiated in consultation with the 'statutory bodies'. College has made a system There shall be a system to help the students to track the 'credit' earning progressively. The Institution shall recognize the following in consultation with the statutory bodies. Courses undergone by the students through the online modes through National Schemes like SWAYAM, NPTEL, V-Lab etc.. We are in the process of developing a system for executing ABC in true spirit. we are expecting that this historic policy on education will yield positive results and to

ensure its effective implementation.

17.Skill development:

In the of view of growing demand of Skilled work force in industries of both public and private sector, Higher education institutions are framing their curriculum accordingly to meet the demand of industries. Affiliated University [JNTUK] have introduced many skill-oriented courses in the curriculum. CECC always encourages and supports students towards skill development by offering Value Added Courses, training programs, Guest lectures from Industry experts and Internships. Apart from usual skill curriculum from parent university, our college signed MOU with many of the training partners. Regular training is imparted in the area of communication skill and aptitude to the students to make them employable during placements.

18.Appropriate integration of Indian Knowledge system (teaching in Indian Language, culture, using online course)

Currently the college taking appropriate action to integration of Indian knowledge system by offering MIL (Modern Indian Languages) and core courses as per CBCS scheme set up by parent university. Most of the student are from rural area they well known in telegu language along with English. The staff and students belong to different religions like Hindus, Muslims, Christians etc. being their mother tongues different like Telugu, Tamil, Urdu etc. The college hosts and celebrates various festivals in the college for students especially living in hostels. Women faculty are sanctioned special permission to celebrate Varalakshmi Vratam every year. Every year the college celebrates Women's day and Cultural fests, with the intension of transferring experiences among students.

19.Focus on Outcome based education (OBE):Focus on Outcome based education (OBE):

One of the most profound benefits of OBE is the sense of clarity it fosters. Students, along with their parents, can pick an institution, program and course based on clearly spelled out learning objectives. The Course Outcome (CO), Program Outcome (PO), Program Specific Outcome (PSO) and Program Educational Objective (PEO) determine exactly what students are expected to accomplish, post their course or program respectively. This clarity is further reflected in the quality of teaching and delivery, across divisions and departments, where faculty may adjust their focus more appropriately. The next advantage, and perhaps the most obvious one, is flexibility. OBE empowers students to choose what they would like to study and how they would like to study it. Not only does it adapt to a learner's strengths and weaknesses, but it also provides

sufficient time to attain proficiency and fluency in the subject matter. Additionally, the model allows the learner to transfer their credits and switch to another institution that is accredited with the OBE syllabus. Institutions are recognized, benchmarked, and can be easily compared with one another based on this accreditation. As you can see, every stakeholder benefits from the OBE framework. National Education Policy-2020 addresses all the above said advantages of OBE. The multiple entry & exit system, establishment of 'Academic bank of Credits', emphasis on learning outcomes, online & digital learning as envisaged in the policy shall promote true OBE in higher education. OBE works well with vocational education streams like engineering and sciences Vis a vie the arts. The latter includes subjects such as literature and philosophy that require a more free-flowing structure. The institution shall further intensify the OBE and shall imbibe best practices on par with the premier institutions in implementation

20.Distance education/online education:

Our institution encourages faculty members to take online classes beyond working hours in order to broaden students' understanding. We encourage students and faculty to take MOOC/NPTEL courses. During the summer, our students participate in internships that are performed on online. The professors held sessions to clear up any doubts and also executed tests through Google Classroom. We will also encourage pupils to take online sessions to obtain soft skills and employability skills from professionals.

Part B

CURRICULAR ASPECTS

1.1 - Curricular Planning and Implementation

1.1.1 - The Institution ensures effective curriculum delivery through a well planned and documented process

Preparation of Academic Calendar: Academic calendar has been prepared after the academic schedule was released by the affiliating University JNTU, Kakinada by the heads of the department in alignment with the University academic calendar. This calendar includes the academic details such as schedule for the number of working days, internal assessment test and association actives such as guest lecture, value added courses, industrial visits, etc.,

Course Allocation /Subject allocation: Courses are allocated to the faculty members based on their expertise & subject preferences by the Head of the department (HOD) and approved by the Principal.

Timetable Preparation: Timetables are prepared by the Time-Table committee in the department and approved by the head of the department and principal.Individual faculty time tables are prepared reflecting his/her complete workload. Design and

Dissemination of Course Plan: Each faculty member prepares a lecture schedule, lesson plan.

Preparation of Course file: Each faculty member prepares the course file which includes the time table,lecture plan, course outcomes, mapping of course outcomes with program outcomes & program specific outcomes, attainment levels and targets, identified curriculum gaps, corrective actions, unit wise notes, previous question papers, assignment questionsand laboratory manual for practical courses. After the completion of the semester, it is updated with analysis of students' feedback, attainment of COs, POs &PSOs and justifications for non-attainment of COs, POs and PSOs (if any).

Monitoring classes: Regular conduct of classes is closely monitored by HODs and Principal and feedback will be collected periodically.

File Description	Documents
Upload relevant supporting document	View File
Link for Additional information	**Nil**

1.1.2 - The institution adheres to the academic calendar including for the conduct of Continuous Internal Evaluation (CIE)

Assessments: Internal Assessment : Faculty will conduct unit test after completion of every unit in every course and there are two internal assessment tests (Mid1 and Mid2) as per the regulations. Based on theUnit test and internal Assessment [MID1] Slow learners and advanced learners are separated in every department. Special coaching classes are conducted after the regular class hours for slow learners. External Assessment : The external assessment is based on the semester end examinations conducted by the university.

Mentoring:

Each student is monitored by a mentor to eveluate his/ her performance. Regular counseling is carried by the mentor to motivate the student in curriculum and extra curriculum activities

These procedures are followed periodically during every semester toensure curriculum delivery through a well-planned and documented

process.

1.3 - Curriculum Enrichment

1.3.1 - Institution integrates crosscutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability into the Curriculum

CECC has several units such as the NSS (National Service Scheme) team and the WEC (Women Empowerment Cell), etc.. Various units are organised activities by the coordinators of the following units, and students are active in various initiatives and topics that are important to their courses, such as Professional Ethics, topics on Gender and Human Values, and Environment and Sustainability.

Chirala Engineering College is connected with JNTUK. As an affiliated College, the College follows the University's curriculum. The University incorporates cross-cutting problems such as Gender, Environment and Sustainability, Human Values, and Professional Ethics into the curriculum. Every year, the College

organises Gender Equality programs, emphasising Woman Empowerment, health checkups, and so on.

2.2 - Catering to Student Diversity

2.2.1 - The institution assesses the learning levels of the students and organizes special Programmes for advanced learners and slow learners

Assessment of the learning levels of the students: • Slow learner and advanced learners would be identified for each subject separately by respective subject teacher for all the semesters. • Process to identify of slow learners and advanced learners would be conducted immediately after declaration of preceding semester university exam result or after one month of teaching in case of First year • Every subject teacher should conduct class test / online objective type test of their subject on syllabus covered till date or on first unit of 10 marks and duration of one hour to identify slow learners and advanced learners • Slow and advanced learners are identified based on following parameters and their weightage.

Guidelines for identifying Advanced Learners (bright students) 1. Advanced Learners (bright students) are those students who are ahead on the learning curve and require advanced technical skill set 2. Advanced earners are identified based on the performance in University Examination of previous semester and internal examinations

Guidelines identifying for slow learner (Weak Students): ? Slow learners are identified based on their performance in University Examination of previous semester and internal examinations

749	**98**

File Description	Documents
Any additional information	[View File](#)

2.3 - Teaching- Learning Process

2.3.1 - Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences

The Chirala Engineering College practices a teaching methodology which focuses on imparting education through a student centric approach. This methodology helps to transform students from being relegated to the role of passive recipients to active and involved stake holders, apart from boosting their confidence and encouraging independence and individuality. Since students vary in their ability to comprehend and absorb it is not possible to address the needs and expectations of individual students and expect a uniform learning outcome from them all in a teacher centric class. The teacher facilitates learning by allowing each individual student to comprehend at their personal level by ensuring their involvement in class activities so that they can absorb and grasp information at their own pace.

Chirala Engineering College provides a platform for students to develop latest and industrial skills, knowledge, values to shape their behavior in the correct manner. All departments conduct innovative programs which stimulate the creative ability of students and provide them a platform to nurture their problem-solving skills and ensure participative learning. The institute organizes annual technical fest through CEC SAPTAVARNA in which students showcase their learning in the form of innovative projects. Students are motivated to participate in inter college as well as national level competitions.

2.3.2 - Teachers use ICT enabled tools for effective teaching-learning process. Write description in maximum of 200 words

It is imperative for teachers to adopt the latest ICT technologies for teaching. Therefore, ICT enabled technologies has become an important consideration for curriculum framework. CECC also has adopted ICT-enabled teaching methods in addition to conventional classroom teaching. The faculty use ICT-enabled learning tools such as PPT, Video clippings, Audio systems, online sources, to impart advanced technologies and practical knowledge.

The faculty use multimedia teaching aids like LCD projectors, internet-enabled computer/laptop systems in selected rooms. The faculty use electronic resources from platforms like DELNET, NPTEL, SWAYAM, COURSERA, and the Digital Library for updating themselves with the state of the art technologies. Google classrooms are also used as online classrooms.These platforms facilitate sharing the learning materials, their resources, quizzes and assignments with the students. This also helps in continual and easy assessment of the students' learning progress.The seminar halls are facilitated with multimedia, high internet bandwidth and WiFi for conducting guest lectures and seminars.

2.5 - Evaluation Process and Reforms

2.5.1 - Mechanism of internal assessment is transparent and robust in terms of frequency and mode. Write description within 200 words.

College is affiliated to JNTUK University, and hence, follows its rules and guidelines regarding the assessment and evaluation process of performance of students. The same is communicated to the students through notice boards, social media etc. The internal assessment is carried out in a systematic manner for theory courses, laboratory courses, seminars, and project. Academic calendar is prepared at the beginning of each semester and is made available on the college website and notice boards of the departments. Thus, students know about the dates of class tests (CT), submission of assignments well in advance and hence, can plan accordingly. The dates and schedule of internal assessment of laboratory courses, seminars, summer internship and project are displayed through the notices to the students well in advance.

File Description	Documents
Any additional information	View File
Link for additional information	**Nil**

2.5.2 - Mechanism to deal with internal examination related grievances is transparent, time- bound and efficient

Gievance redressal system:

With reference to the internal examination process, the students report to the department coordinators for clarification of Internal Assessment related issues. Grievances like total marks mistake, not valuation of answer, etc. are addressed by the concerned subject teacher. Grievances like Partiality in valuation, students not satisfied with the marks awarded, etc. are addressed at department level by the department examination

committee.

File Description	Documents
Any additional information	[View File]
Link for additional information	**Nil**

2.6 - Student Performance and Learning Outcomes

2.6.1 - Teachers and students are aware of the stated Programme and course outcomes of the Programmes offered by the institution.

The process of attainment of COs, POs and PSOs starts from writing appropriate COs for each course of the program from first year to fourth year in a four-year engineering degree program. The course outcomes are written by the respective faculty member using action verbs of learning levels suggested by Bloom and Anderson. Then, a correlation is established between COs and POs in the scale of 1 to 3, 1 being the slight (low), 2 being moderate (medium) and 3 being substantial (high). A mapping matrix is prepared in this regard for every course in the program including the elective subjects. The course outcomes written and their mapping with POs are reviewed frequently by a committee of senior faculty members before they are finalized.

Assessment is one or more processes carried out by the department, which identify, collect and prepare data to evaluate the achievement of POs and Program Specific Outcomes (PSOs). Attainment is the action or fact of achieving a standard result towards accomplishment of desired goals. Primarily attainment is the standard of academic attainment as observed by examination results.

File Description	Documents
Upload any additional information	[View File]
Paste link for Additional information	https://www.cecc.co.in/academics/syllabus/
Upload COs for all courses (exemplars from Glossary)	[View File]

2.6.2 - Attainment of Programme outcomes and course outcomes are evaluated by the institution.

For the evaluation and assessment of CO's and PO's, rubrics are used. The rubrics considered here are given below: Course Outcome

is evaluated based on the performance of students in internal
assessments and in End examination of a course. Internal
assessment contributes 30% and End examinations assessment
contributes 70% to the total attainment of a CO.

After measuring CO attainment for a course, CO-PO mapping table
will give Program Outcome attainment levels.

Following are the different methods for Assessment, Evaluation and
Measurement of POs/PSOs Direct Assessment methods: [80%]
Continuous Assessment: COs are assessed through Sessional &
Assignment Examinations and Lab records. The COs are mapped
against each question and CO analysis is carried out by faculty
for each course and documented. The contribution of COs is
assessed in high, moderate and low levels, towards the attainment
of POs/PSOs.

Semester-end Theory Examinations: The questions in semester-end
examinations are tested pertaining to all COs, in varying Blooms
Taxonomy Levels

Laboratory Records: Both continuous and semester-end examinations
are conducted to test the COsattainment.

Indirect Assessment Methods: [20%] Programme – Exit survey: This
survey taken from the final year students at the completion of
their B. Tech programme, stands as the comprehensive feedback for
the PO/PSO assessment

3.3 - Extension Activities

3.3.1 - Extension activities are carried out in the neighborhood community, sensitizing students to social issues, for their holistic development, and impact thereof during the year

Chirala Engineering College organizes several extension activities in the neighbourhood community to promote the students towards social responsibility leading to their overall development. The college has student-oriented wing like NSS, through this wing, the college undertakes various extension activities in the neighbourhood community. With an intention to involvement in a nation building activities, the students are motivated and to lendtheir hands in different social activities. The extension and outreach activities for the last five years targeted clean and green environment through different functional groups like Swachh Bharat, NSS, and several societal development activities with the collaboration with non-Governmental organizations

INFRASTRUCTURE AND LEARNING RESOURCES

4.1 - Physical Facilities

4.1.1 - The Institution has adequate infrastructure and physical facilities for teaching- learning. viz., classrooms, laboratories, computing equipment etc.

Chirala Engineering College is in 32 acres of land. The college has very good Infrastructure and provides beautiful physical facilities for teaching. It follows the procedures of Jawaharlal Nehru Technological University, Kakinada. The Environment is pleasant which encourages the students to learn easily. The facilities provided in the campus are as follows. Classrooms: There are spacious classrooms with very good ventilation.

Laboratories: The laboratories in the college are established with the latest and advanced equipment. In addition to this we have a BIGDATA lab which works as a center for the development of students in research point and to extend their knowledge beyond the curriculum and to develop good projects.

Seminar Halls: The college has seminar halls with 300 – 400 seating capacity and they are installed with Projector, Wi-Fi and LAN connection. These are suitable for conducting seminars, guest lectures, workshops, presentations etc., Computing Equipment: The college has more the 400 computers with all the required ports. These are also have been using for the government and central government exams like, Bank exams, Gate etc., Library: The college has a big central library with more than 40,000 books. It also has digital library with more than 30 computers with high- speed Wi-Fi connectivity. It also provides the international journals and also a daily newspaper. The staff and students have access for online journals through DELNET, National Digital Library.

4.2 - Library as a Learning Resource

4.2.1 - Library is automated using Integrated Library Management System (ILMS)

The Institution has a spacious Central Library with an area of 660 SQM and has a seating capacity for 160 users. It is automated with ECAP, which is an Integrated Library Management System (ILMS) that supports in house operations of Cataloguing and Circulation through a dedicated server. The library has a rich collection of 41,045 volumes of textbooks with 7399 titles. There is an online access to e-Resources on Engineering, Science and Technology, Management, Basic Sciences and Humanities etc. The college also provides Book Bank facility to SC/ST students for their academic needs. The college subscribed DELNET to access e-journals, e-Books and many of journal articles, audio books, etc. in addition to the subscription of 68 print periodicals that include National and International journals, and technical magazines are available. Library resources have been completely bar-coded and computerized. Circulation counter is available for issue, return and renewal of books using ILMS package. The library offers computerized Catalogue Search Services for user community through the On-line Public Access Catalogue (OPAC) which allows access of bibliographic details of the books available in the Central Library. Biometric system is used instead of the manual gate register, which is mandatory for check-in and check-out of library users.

5.4 - Alumni Engagement

5.4.1 - There is a registered Alumni Association that contributes significantly to the development of the institution through financial and/or other support services

The College has an Alumni Association under the leadership of a Sr. Faculty. The Alumni Association work started in the year 2008 and process of registration is in progress. Its motive is to bring together all the alumni to share their experiences and to extend their helping hand and provide guidance to the building engineers of the college. The Alumni Association contributes in academic matters and in student support. Many alumni are engaged in various Technical and Non-technical events through their domain expertise.

All the passed out students of the college became members of the alumni association. The Alumni spread around the globe, support the college in various activities. It organizes yearly meet in College, Hyderabad/Bangalore every year. Alumni association organizes various technical seminars/guest lecturers, motivates and guide students for their academic improvement and career planning. Some of our alumni pursue higher studies in premier universities of India and abroad. Hence such alumni visit the college and share their knowledge on choosing universities, the process to be undertaken for this and guide the students to apply and secure admissions for post-graduate studies. They also provide Entrepreneurship Development training for interested students and also encourage students to think of small- budget projects with innovative and beneficial ideas.

GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 - Institutional Vision and Leadership

6.1.1 - The governance of the institution is reflective of and in tune with the vision and mission of the institution

VISION: Our College seeks to develop wisdom in students that translates academic achievement into responsible citizenship, sincere professional service and a deep respect for life and beauty in God's creation. MISSION: Our mission is to further the college in imparting technical education for students, while maintaining our traditions and culture. All staff shall inculcate in themselves humbleness, simplicity, honesty and uphold dignity towards higher learning and serving the mankind. The college shall strive to its best in producing excellent engineers and managers who will be appreciated by industry and other sectors. OBJECTIVES OF THE COLLEGE: To achieve academic excellence in professional

education and emerge as a center of excellence.

To strengthen the college/society in all academic aspects.

To encourage and support collaborative and cross program initiatives. To include high moral, ethical and professional standards among our students and improve their overall personality. To improve the communication skills of rural students by arranging special training programmes. *CHIRALAENGINERING COLLEGE-WHERE PROFESSIONALISM SPEAKS*

6.1.2 - The effective leadership is visible in various institutional practices such as decentralization and participative management.

The institution functions with the method of decentralized governance system. The head of the department has been bestowed with the authority of deciding the activities and delegating the responsibilities to the staff members. The department decides on timetable, subject allocation, purchase and maintenance of equipment and consumables, organizing conferences, symposia, guest lectures and workshops and recommends necessary industrial visits, in-plant trainings, internships and MOUs. The institution is functioning effectively with the culture of participative management which enables the faculty and students to give theiropinion and suggestions for improvement. All the academic activities are decentralized and decisions are taken based on discussion and deliberations in the class committee meetings, department meetings, faculty meetings, HODs' meetings with Principal and HODs meetings with Director. The Principal coordinates with the departments, administration and management. Participative management provides extensive scope for having collaboration among the departments and ensures the quality of planning and implementation of all the activities in the institution uniformly and as a team. Every year Academic Planner is prepared at the closure of the previous academic year. Principal will convene the HODs' meeting. HODs, Training & Placement, Sr. Librarian and Head of Physical education will attend the meeting. The schedule of the following will be discussed and finalized in accordance with the schedule received

from affiliating university.

6.2 - Strategy Development and Deployment

6.2.1 - The institutional Strategic/ perspective plan is effectively deployed

Over the past 21 years the college has shown tremendous growth. The institute possessing a perspective plan for the development. The College strives hard in achieving high standards of teaching, training, and development of human resources by encouraging its faculty and staff to work as a team and to update their knowledge and skills periodically to match the needs of industry. Provision of adequate annual budget is allocated as the part of the development plan. The aspects to be included in the perspective plan will be drawn from College level and Departmental level presented to the Governing Body which in turn ratifies expenditure and approves new budget proposals. Perspective Plan:

- To maintain continuously good academic performance
- To develop and execute effective teaching- learning process
- To encourage research culture in faculty and students
- To develop a comprehensive system of student mentoring and student support and ensure transparency in evaluation process of students
- To empower faculty about emerging trends in their profession for academic advancement
- To facilitate a friendly, efficient, and flawless administrative set up ensuring a smooth day to day functioning
- To make the Institute as a 'Center of Excellence
- To train the students to prepare them ready to face the competition at national and international levels.
- To obtain NBA accreditation for all the programs being offered in the institution
- To secure accreditation by NAAC with good rating. More number of MoUs with Industries and Improving the Industry Institute relationship.

6.2.2 - The functioning of the institutional bodies is effective and efficient as visible from policies, administrative setup, appointment and service rules, procedures, etc.

The system and stakeholders benefit from the management's openness. The Governing Body accepts responsibility for keeping track of how the initiatives in the institutional strategic plan are being carried out. Even though a few important objectives are quickly accomplished, the Governing Body, which consists of top management, the principal, HODs, teaching and non-teaching staff, students, and stakeholders, collaborates to strengthen the culture of excellence. The institute's motto, "We build a better Nation through Quality Education," ensures excellence in every area not only via its mission and strategies, but also through its many activities. The list of crucial actions is below.

Implementing contemporary teaching and learning strategies The HODs are keeping an eye on the processes and progress.

Examining the opinions of teachers, parents, and professionals Taking into account the aforementioned suggestions and upgrading services

6.3 - Faculty Empowerment Strategies

6.3.1 - The institution has effective welfare measures for teaching and non- teaching staff

WELFARE MEASURES

The performance of each employee is assessed annually after completion of one year of service. In connection with this, Existing welfare measure for teaching and non-teaching staff are itemized below:

- Medical Leave & Maternity leave for eligible staff members
- Advances given to Non-teaching Staff
- Uniforms for non-teaching staff
- Big data analytics
- R.O Water
- Gym is also accessible for all the staff members
- Medical centre.
- Free Transport for staff
- Sponsorships to attend and present papers in conferences/workshops/seminars both in India as well as abroad.
- Food Court is available for staff members at reasonable cost which are accessible by staff during the working and extended hours.
- Internet and free Wi-Fi facilities are also available in campus for staff
- Faculty members are provided with Individual cabin and system to facilitate good ambience.
- 30 days - summer Vacations for faculty members
- Skill development courses are organized for non- teaching staff to enhance their skills in work environment.
- All the faculty members who upgrade their research work through quality publications during the academic year are

honored by the institute through research and development centre.

6.3.5 - Institutions Performance Appraisal System for teaching and non- teaching staff

Response: Performance Appraisal System for teaching and non-teaching staff The institution has performance-based appraisal system for the assessment of teaching and nonteaching staff. The appraisal report is based on the annual performance of the

employees based on their academic, research and other extra-curricular activities. Performance appraisal system for teaching staff The performance of the faculty is evaluated based on professional contribution to academics, contribution to short-term training courses, performing invigilation duties, contribution to college administrative bodies such as college academic council, R&D council, planning and development committee, NBA, NAAC, etc. Student feedback and pass percentage of the course are also considered. Financial support to the faculty is rendered with the motive to enhance or upgrade their knowledge through their participation in conferences, workshops; publications in Scopus indexed journals, book publication, sponsored projects consultancy, research supervision, awards, honors, fellowships etc. Filled in theprescribed format is revised by HOD as well as Principal to assess the attitudinal/behavioral/professional aspects of the faculty concerned. Performance appraisal system for non- teaching staff: The various parameters for non-Teaching staff members are assessed under different categories i.e., Character and Habits, Departmental Abilities, Capacity to do hard work, Discipline, Reliability, Relations/Co-operation with superiors, subordinates, colleagues, students and public, efficient organization of documents and technical abilities (in case of workshop staff).

6.4 - Financial Management and Resource Mobilization

6.4.1 - Institution conducts internal and external financial audits regularly Enumerate the various internal and external financial audits carried out during the year with the mechanism for settling audit objections within a maximum of 200 words

Chirala Engineering College is an independent organisation that supports itself through student fees and income from its corpus fund. Deficits are handled by taking an advance from the parent trust. Faculty members can apply for more funding by submitting their research proposals. These funds are utilised for research and development in laboratories. The institute has a clear framework in place to monitor how well and effectively the available financial resources are being used to develop infrastructure and academic procedures.

The accounting department develops the institution's budget each year while taking both ongoing and one-time costs into consideration. All administrative and academic officials are required to propose the necessary budget for the upcoming fiscal year. Along with this, all cell coordinators, including those for R&D, exams, T&P, NSS, etc., are told to turn in their budgets to the account office. The college's management team, the accounting department, and the principal make all of the important financial decisions.

As and when urgent requirements arise it is given after sanctioned revived from accounts office. All the major financial transactions are analyzed and verified under following sections:

- Training & Placement
- Software & Internet charges
- Research & Development
- Library Books / Journals
- etc...

6.4.3 - Institutional strategies for mobilization of funds and the optimal utilization of resources

Mobilization Fees Collections:

According to the Government of Andhra Pradesh's stipulated Higher Education regulations. 70% of students are admitted through counselling and 30% of applicants fall under category B.

Term Loan and Hire Purchase Loans:

By maintaining strong liquidity, DSCR, and Debt Equity Ratios and obtaining the loans through Banks, the Institute is able to obtain the aforementioned Loans from Banks at a lower rate of interest.

Non Government Bodies and Sponsorship Receipts:

For institutional activities, donations are received from well-wishers. businesses, people, and philanthropists.

Optimal Utilization/ Recurring Expenses:

Salary to staff, academic activities and payment of bank interest are done with fees collection.

Infrastructural development facilities and Building construction works:

The management allots funds for construction projects as well as for the creation and modernization of infrastructure facilities. For the same, prudent use is made of bank loans and corpus gifts from well-wishers and philanthropists.

The institute receives funding from AICTE for the purchase of cutting-edge lab equipment, the most recent software, and other items. Grants are put to use.

Through hire purchase loans from banks, the college buys new vehicles based on student enrollment, and the loans are returned with lower interest rates from the reasonable transportation costs.

6.5 - Internal Quality Assurance System

6.5.1 - Internal Quality Assurance Cell (IQAC) has contributed significantly for institutionalizing the quality assurance strategies and processes

The IQAC is the most vibrant and highly active team in the institution whose motto is to maintain the quality culture. The IQAC team efficiently drives the institution to achieve the highest grade in its second cycle of assessment by setting up a very high benchmark. The team of IQAC comprises the Chairperson, Coordinators and the Representatives from the Management, faculty, administration, students, alumni, local society, and employers/industrialists/stakeholders.

The IQAC of the institution has taken several significant initiatives during the last year for prompting the quality on the campus:

- Efforts have been placed to get autonomous status to the college
- Enhanced the faculty development programs and activities
- Established the international collaborations with the support of research sponsoring agencies.
- Entrepreneurial activities increased
- Majority of the classrooms on the campus are upgraded with ICT equipment.
- Institutional Audits

IQAC implemented practices:

Practice 1: Automation in Academic and Administrative functions:

Practice 2: Mentoring System

6.5.2 - The institution reviews its teaching learning process, structures & methodologies of operations and learning outcomes at periodic intervals through IQAC set up as per norms and recorded the incremental improvement in various activities

Content beyond the syllabus and Skill rack online programming:

The teaching learning process is continuously monitored and reviewed by the Head of the departments and reported to the Principal and the management. Apart from the regular class room lectures by the faculty members for each course, students are given opportunities to attend the guest lecture from industrial experts in the smart class rooms. The contents of this type of lecture are beyond the syllabus and they expose the industry requirement to the students. This lecture facilitates the students to know in depth about the industry requirement and the necessary skills they should equip with for placement. The interactions with industrial experts narrow down the gap between the institute and the industry requirement which helps the management in identifying the necessary soft skill development required for the students. Placement training through online tests by Skill rack is an online programming introduced by the management with a view to help the students for better placement. Faculty members are trained on the same before implementing it to the students. Skill rack is an initiative facilitated by IQAC with the support from Training and Placement cell. Guest lectures on content beyond the syllabus and Skill rack introduced by the management are the outcomes of IQAC which are well supported by the management.

INSTITUTIONAL VALUES AND BEST PRACTICES

7.1 - Institutional Values and Social Responsibilities

7.1.1 - Measures initiated by the Institution for the promotion of gender equity during the year

Chirala Engineering College is persistently nurturing the students as a community. The term "fair treatment for both women and men, according to their various requirements" is used to describe the gender equity. It may involve receiving unique treatment that is yet recognized identical in terms of rights, rewards, obligations, and opportunities.

Education is concerned with how people establish habits. If this is the case, then we must seriously consider how education can promote the equal participation of men and women in decision-making, lessen the enrollment gap between men and women, provide equality in the learning experience, academic performance, and external results, and offer benefits to both genders.

If gender parity is fully attained, it will be benefited to the both boys and girls more than approaches that are oriented on men and girls will profit from thepublic and home life to the same extent as boys.

Chirala Engineering College is most concerned about the safety, security, well-being, as well as the gender parity and a pleasant work environment.

7.1.3 - Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste (within 200 words) Solid waste management Liquid waste management Biomedical waste management E-waste management Waste recycling system Hazardous chemicals and radioactive waste management

Solid Waste Management

The different colours of bins are placed at various places to collect dry and wet wastes separately to transport it to the concerned place. The garbage is used to generate organic manure for maintaining healthy environment.

Liquid Waste Management

The major liquid waste includes effluents from toilets and the laboratories. These are collected in the separate septic pits and allowed to settle into the soil. The water is filtered and used for greenery. No biomedical waste is generated on the campus.

E-waste management

The key objectives of Collecting e-waste are to divide the useable

circuits and components and turning them into useful products. Moreover, staff members and laboratory assistants fix small equipment issues, while experienced technicians handle serious repairs.

Waste Recycling System

Waste water is generated in the campus include sewage, hostel and mess effluent waste. The entire water is used for watering the gardens and Sewage treatment plant used as manure for the gardens.

- The storm water runoff is diverted into the rainwater harvesting pond set up by the college.

Hazardous chemicals and radioactive waste management

- There are no hazardous chemicals used on the campus. No radioactive waste is generated on the campus.

7.1.8 - Describe the Institutional efforts/initiatives in providing an inclusive environment i.e., tolerance and harmony towards cultural, regional, linguistic, communal socioeconomic and other diversities (within 200 words).

Our college is founded with the noble cause of empowering students in rural areas, and continuously works to promote collaborative settings through promoting innovation and cutting-edge research. The under laying idea is to welcome all students, challenge them appropriately, and encourage them in their endeavours. As a result, the institution is a dynamic and interconnected community that serves as a home for aspiring and creative students from various socioeconomic and cultural backgrounds. Undoubtedly, Chirala Engineering College students are growing amicably despite the economic, cultural, social, and linguistic disparities.

The students in regular classes are fervent in their aloof quest of knowledge, and they discuss, dispute, and debate a wide range of academic, scientific, technological, and research subjects without ever losing sight of the element of harmony and solidarity. The institute shapes all facets of the students for a better future and profession by creating a realistic teaching-learning environment where education serves as a tool for social, economic, and cultural transformation. Students are sufficiently equipped for the complex nature of cultural and creative difficulties in their post-academic lives, cultural personality development programmes like Art of Living activities etc., are ongoing on campus.

7.1.9 - Sensitization of students and employees of the Institution to the constitutional obligations: values, rights, duties and responsibilities of citizens

Along with the usual academic programmes, Chirala Engineering College also arranges a number of extracurricular events aimed at moulding the students into responsible citizens. Since its foundation, the institution has demonstrated a strong commitment to its vision and mission along with its curricula that consistently incorporates academic and socio-personal elements in order to provide a more humanistic approach to the students' professional and personal life processes.

The institution offers to the first and second year students many courses and motivational talks to sharpen their sensibilities because human values, professional ethics, and civic responsibilities have become an even greater part of one's success on a personal and professional front.

"The Constitution of India" course is also offered tosensitizethe studentsto the fundamental principles of the constitution.

A variety of serve-learn activities are included to the academic education in addition to the courses based on the AICTE model curriculum. Thus, the Women Empowerment Cell, the NSS Unit, the Universal Human Values & PAIE for mental & physical health, the Counselling Cell for various concerns that may emerge, and other bodies have all been incredibly effective in achieving the college's vision.

7.1.11 - Institution celebrates / organizes national and international commemorative days, events and festivals

India is one of the most ethnically and religiously diverse countries in the world, where people from many languages and cultures coexist together. On campus, people enthusiastically celebrate national holidays. Additionally, the institute places a high value on regional festivals and encourages everyone—students, teachers, and non-teaching staff—to celebrate them, regardless of their caste or religion.

The institution commemorates all national holidays. The following is a list of a few of the events:

Every year on campus, the institution hoists the American flag in honour of Independence Day. This is followed by the National Anthem, patriotic songs, and numerous appropriate events. The Republic Day is celebrated every year to honour the Indian Constitution. The statement from the chief guest is followed by patriotic songs, speeches, and tributes to all independence warriors. The organisation honours Dr. Sarvepalli Radha Krishnan, a revered educator and national philosopher, on The Teacher's Day

which also happens to be his birthday. The college observes Mahatma Gandhi Jayanti on its campus each year in honour of and remembrance of the nation's father. The institution's departments all come together to commemorate Engineer's Day on September 15th, which is also Dr. Mokshagundam Visvesvarayya's birthday, in a big way.

7.2 - Best Practices

7.2.1 - Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual.

The institution's goal is to give students the education, preparation, and tools they need to excel as professionals in their fields. Any educational activity centres on the teaching and learning process. The entire teaching and learning process is challenged by the rapidly evolving nature of technology, the changing viewpoints of millennial students, and the introduction of a new generation of teachers. The main goal of this method is to improve learning delivery by training facilitators in better teaching and learning processes.

The Context:

Over the past few decades, there has been a paradigm shift in how we approach teaching. The focus has changed from being teacher-centered, where the student is merely a passive participant, to being student-centered, when the teacher only serves as a facilitator of the student's learning. Additionally, the teaching paradigm has been altered and disrupted by the rapid advancement of science and technology as well as the demands of the native millennial student population. Those who have recently started working as teachers typically include millennials. For the teaching-learning process to be effective and efficient in this environment, teachers must obtain adequate training.

7.3 - Institutional Distinctiveness

7.3.1 - Portray the performance of the Institution in one area distinctive to its priority and thrust within 200 words

The institution wishes to provide students with the necessary knowledge, skills, and training to enable them to become quality practitioners of their field. The teaching and learning process is central to any educational activities.

The institute has taken steps to guarantee those faculties are well prepared in teaching approaches since its establishment. In this sense, faculty development programs for teacher training are ongoing; resource people for these programs may come from national teacher training organizations or senior faculty members on campus. Teachers are occasionally offered the option to attend such programs off campus.

Senior professors provide orientation to freshly hired faculty members with less than two years of teaching experience at Chirala Engineering College. Participants are given the opportunity to practice teaching sessions as well as teaching approaches during the orientation program. All new members are encouraged to observe and participate in senior faculty classes' classroom activities.

ChiralaEngineeringCollegefirmlybelievesingivingitsstudentseveryopportunitytoadvancepastthestandardcurriculum.

Thepurposeofthispracticeistoofferallstudentsanadditionallearningopportunityduringthefour-yeargraduationprogramataverylowcost. In this regard, the institution has agreements with numerous reputable national and international organizations.

Part B

CURRICULAR ASPECTS

1.1 - Curricular Planning and Implementation

1.1.1 - The Institution ensures effective curriculum delivery through a well planned and documented process

Preparation of Academic Calendar: Academic calendar has been prepared after the academic schedule was released by the affiliating University JNTU, Kakinada by the heads of the department in alignment with the University academic calendar. This calendar includes the academic details such as schedule for the number of working days, internal assessment test and association actives such as guest lecture, value added courses, industrial visits, etc.,

Course Allocation /Subject allocation: Courses are allocated to the faculty members based on their expertise & subject preferences by the Head of the department (HOD) and approved by the Principal.

Timetable Preparation: Timetables are prepared by the Time-Table committee in the department and approved by the head of the department and principal.Individual faculty time tables are prepared reflecting his/her complete workload. Design and Dissemination of Course Plan: Each faculty member prepares a lecture schedule, lesson plan.

Preparation of Course file: Each faculty member prepares the course file which includes the time table,lecture plan, course outcomes, mapping of course outcomes with program outcomes & program specific outcomes, attainment levels and targets, identified curriculum gaps, corrective actions, unit wise notes, previous question papers, assignment questionsand laboratory manual for practical courses. After the completion of the semester, it is updated with analysis of students' feedback, attainment of COs, POs &PSOs and justifications for non-attainment of COs, POs and PSOs (if any).

Monitoring classes: Regular conduct of classes is closely monitored by HODs and Principal and feedback will be collected periodically.

File Description	Documents
Upload relevant supporting document	View File
Link for Additional information	Nil

1.1.2 - The institution adheres to the academic calendar including for the conduct of Continuous Internal Evaluation (CIE)

Assessments: Internal Assessment : Faculty will conduct unit test after completion of every unit in every course and there are two internal assessment tests (Mid1 and Mid2) as per the regulations. Based on theUnit test and internal Assessment [MID1] Slow learners and advanced learners are separated in every department. Special coaching classes are conducted after the regular class hours for slow learners. External Assessment : The external assessment is based on the semester end examinations conducted by the university.

Mentoring:

Each student is monitored by a mentor to eveluate his/ her performance. Regular counseling is carried by the mentor to motivate the student in curriculum and extra curriculum activities

These procedures are followed periodically during every semester toensure curriculum delivery through a well-planned and documented process.

1.3 - Curriculum Enrichment

1.3.1 - Institution integrates crosscutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability into the Curriculum

CECC has several units such as the NSS (National Service Scheme) team and the WEC (Women Empowerment Cell), etc.. Various units are organised activities by the coordinators of the following units, and students are active in various initiatives and topics that are important to their courses, such as Professional Ethics, topics on Gender and Human Values, and Environment and Sustainability.

Chirala Engineering College is connected with JNTUK. As an affiliated College, the College follows the University's curriculum. The University incorporates cross-cutting problems such as Gender, Environment and Sustainability, Human Values, and Professional Ethics into the curriculum. Every year, the College organises Gender Equality programs, emphasising Woman Empowerment, health checkups, and so on.

2.2 - Catering to Student Diversity

2.2.1 - The institution assesses the learning levels of the students and organizes special Programmes for advanced learners and slow learners

Assessment of the learning levels of the students: • Slow learner and advanced learners would be identified for each subject separately by respective subject teacher for all the semesters. • Process to identify of slow learners and advanced learners would be conducted immediately after declaration of preceding semester university exam result or after one month of teaching in case of First year • Every subject teacher should conduct class test / online objective type test of their subject on syllabus covered till date or on first unit of 10 marks and duration of one hour to identify slow learners and advanced learners • Slow and advanced learners are identified based on following parameters and their weightage.

Guidelines for identifying Advanced Learners (bright students) 1. Advanced Learners (bright students) are those students who are ahead on the learning curve and require advanced technical skill set 2. Advanced earners are identified based on the performance in University Examination of previous semester and internal examinations

Guidelines identifying for slow learner (Weak Students): ? Slow learners are identified based on their performance in University Examination of previous semester and internal examinations

2.3 - Teaching- Learning Process

2.3.1 - Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences

The Chirala Engineering College practices a teaching methodology which focuses on imparting education through a student centric approach. This methodology helps to transform students from being relegated to the role of passive recipients to active and involved stake holders, apart from boosting their confidence and encouraging independence and individuality. Since students vary in their ability to comprehend and absorb it is not possible to address the needs and expectations of individual students and expect a uniform learning outcome from them all in a teacher centric class. The teacher facilitates learning by allowing each individual student to comprehend at their personal level by ensuring their involvement in class activities so that they can absorb and grasp information at their own pace.

Chirala Engineering College provides a platform for students to develop latest and industrial skills, knowledge, values to shape their behavior in the correct manner. All departments conduct innovative programs which stimulate the creative ability of students and provide them a platform to nurture their problem-solving skills and ensure participative learning. The institute organizes annual technical fest through CEC SAPTAVARNA in which students showcase their learning in the form of innovative projects. Students are motivated to participate in inter college as well as national level competitions.

2.3.2 - Teachers use ICT enabled tools for effective teaching-learning process. Write description in maximum of 200 words

It is imperative for teachers to adopt the latest ICT technologies for teaching. Therefore, ICT enabled technologies has become an important consideration for curriculum framework. CECC also has adopted ICT-enabled teaching methods in addition to conventional classroom teaching. The faculty use ICT-enabled learning tools such as PPT, Video clippings, Audio systems, online sources, to impart advanced technologies and practical knowledge.

The faculty use multimedia teaching aids like LCD projectors, internet-enabled computer/laptop systems in selected rooms. The faculty use electronic resources from platforms like DELNET, NPTEL, SWAYAM, COURSERA, and the Digital Library for updating themselves with the state of the art technologies. Google classrooms are also used as online classrooms.These platforms facilitate sharing the learning materials, their resources, quizzes and assignments with the students. This also helps in continual and easy assessment of the students' learning progress.The seminar halls are facilitated with multimedia, high internet bandwidth and WiFi for conducting guest lectures and seminars.

2.5 - Evaluation Process and Reforms

2.5.1 - Mechanism of internal assessment is transparent and robust in terms of frequency and mode. Write description within 200 words.

College is affiliated to JNTUK University, and hence, follows its rules and guidelines regarding the assessment and evaluation process of performance of students. The same is communicated to the students through notice boards, social media etc. The internal assessment is carried out in a systematic manner for theory courses, laboratory courses, seminars, and project. Academic calendar is prepared at the beginning of each semester and is made available on the college website and notice boards of the departments. Thus, students know about the dates of class tests (CT), submission of assignments well in advance and hence, can plan accordingly. The dates and schedule of internal assessment of laboratory courses, seminars, summer internship and project are displayed through the notices to the students well in advance.

File Description	Documents

Link for additional information	Nil

2.5.2 - Mechanism to deal with internal examination related grievances is transparent, time-bound and efficient

Gievance redressal system:

With reference to the internal examination process, the students report to the department coordinators for clarification of Internal Assessment related issues. Grievances like total marks mistake, not valuation of answer, etc. are addressed by the concerned subject teacher. Grievances like Partiality in valuation, students not satisfied with the marks

awarded, etc. are addressed at department level by the department examination committee.

File Description	Documents
Any additional information	View File
Link for additional information	**Nil**

2.6 - Student Performance and Learning Outcomes

2.6.1 - Teachers and students are aware of the stated Programme and course outcomes of the Programmes offered by the institution.

The process of attainment of COs, POs and PSOs starts from writing appropriate COs for each course of the program from first year to fourth year in a four-year engineering degree program. The course outcomes are written by the respective faculty member using action verbs of learning levels suggested by Bloom and Anderson. Then, a correlation is established between COs and POs in the scale of 1 to 3, 1 being the slight (low), 2 being moderate (medium) and 3 being substantial (high). A mapping matrix is prepared in this regard for every course in the program including the elective subjects. The course outcomes written and their mapping with POs are reviewed frequently by a committee of senior faculty members before they are finalized.

Assessment is one or more processes carried out by the department, which identify, collect and prepare data to evaluate the achievement of POs and Program Specific Outcomes (PSOs). Attainment is the action or fact of achieving a standard result towards accomplishment of desired goals. Primarily attainment is the standard of academic attainment as observed by examination results.

File Description	Documents
Upload any additional information	View File
Paste link for Additional information	https://www.cecc.co.in/academics/syllabus/
Upload COs for all courses (exemplars from Glossary)	View File

2.6.2 - Attainment of Programme outcomes and course outcomes are evaluated by the institution.

For the evaluation and assessment of CO's and PO's, rubrics are used. The rubrics considered here are given below: Course Outcome is evaluated based on the performance of students in internal assessments and in End examination of a course. Internal assessment contributes 30% and End examinations assessment contributes 70% to the total attainment of a CO.

After measuring CO attainment for a course, CO-PO mapping table will give Program Outcome attainment levels.

Following are the different methods for Assessment, Evaluation and Measurement of POs/PSOs Direct Assessment methods: [80%] Continuous Assessment: COs are assessed through Sessional & Assignment Examinations and Lab records. The COs are mapped against each question and CO analysis is carried out by faculty for each course and documented. The contribution of COs is assessed in high, moderate and low levels, towards the attainment of POs/PSOs.

Semester-end Theory Examinations: The questions in semester-end examinations are tested pertaining to all COs, in varying Blooms Taxonomy Levels

Laboratory Records: Both continuous and semester-end examinations are conducted to test the COsattainment.

Indirect Assessment Methods: [20%] Programme – Exit survey: This survey taken from the final year students at the completion of their B. Tech programme, stands as the comprehensive feedback for the PO/PSO assessment

INFRASTRUCTURE AND LEARNING RESOURCES

4.1 - Physical Facilities

4.1.1 - The Institution has adequate infrastructure and physical facilities for teaching- learning. viz., classrooms, laboratories, computing equipment etc.

Chirala Engineering College is in 32 acres of land. The college has very good Infrastructure and provides beautiful physical facilities for teaching. It follows the procedures of Jawaharlal Nehru Technological University, Kakinada. The Environment is pleasant which encourages the students to learn easily. The facilities provided in the campus are as follows.

Classrooms: There are spacious classrooms with very good ventilation. Laboratories: The laboratories in the college are established with the latest and advanced equipment. In addition to this we have a BIGDATA lab which works as a center for the development of students in research point and to extend their knowledge beyond the curriculum and to develop good projects.

Seminar Halls: The college has seminar halls with 300 - 400 seating capacity and they are installed with Projector, Wi-Fi and LAN connection. These are suitable for conducting seminars, guest lectures, workshops, presentations etc., Computing Equipment: The college has more the 400 computers with all the required ports. These are also have been using for the government and central government exams like, Bank exams, Gate etc., Library: The college has a big central library with more than 40,000 books. It also has digital library with more than 30 computers with high- speed Wi-Fi connectivity. It also provides the international journals and also a daily newspaper. The staff and students have access for online journals through DELNET, National Digital Library.

4.2 - Library as a Learning Resource

4.2.1 - Library is automated using Integrated Library Management System (ILMS)

The Institution has a spacious Central Library with an area of 660 SQM and has a seating capacity for 160 users. It is automated with ECAP, which is an Integrated Library Management System (ILMS) that supports in house operations of Cataloguing and Circulation through a dedicated server. The library has a rich collection of 41,045 volumes of textbooks with 7399 titles. There is an online access to e-Resources on Engineering, Science and Technology, Management, Basic Sciences and Humanities etc. The college also provides Book Bank facility to SC/ST students for their academic needs. The college subscribed DELNET to access e-journals, e-Books and many of journal articles, audio books, etc. in addition to the subscription of 68 print periodicals that include National and International journals, and technical magazines are available. Library resources have been completely bar-coded and computerized. Circulation counter is available for issue, return and renewal of books using ILMS package. The library offers computerized Catalogue Search Services for user community through the On-line Public Access Catalogue (OPAC) which allows access of bibliographic details of the books available in the Central Library. Biometric system is used instead of the manual gate register, which is mandatory for check-in and check-out of library users.

5.4 - Alumni Engagement

5.4.1 - There is a registered Alumni Association that contributes significantly to the development of the institution through financial and/or other support services

The College has an Alumni Association under the leadership of a Sr. Faculty. The Alumni Association work started in the year 2008 and process of registration is in progress. Its motive is to bring together all the alumni to share their experiences and to extend their helping hand and provide guidance to the building engineers of the college. The Alumni Association contributes in academic matters and in student support. Many

alumni are engaged in various Technical and Non-technical events through their domain expertise. All the passed out students of the college became members of the alumni association. The Alumni spread around the globe, support the college in various activities. It organizes yearly meet in College, Hyderabad/Bangalore every year. Alumni association organizes various technical seminars/guest lecturers, motivates and guide students for their academic improvement and career planning. Some of our alumni pursue higher studies in premier universities of India and abroad. Hence such alumni visit the college and share their knowledge on choosing universities, the process to be undertaken for this and guide the students to apply and secure admissions for post-graduate studies. They also provide Entrepreneurship Development training for interested students and also encourage students to think of small- budget projects with innovative and beneficial ideas.

GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 - Institutional Vision and Leadership

6.1.1 - The governance of the institution is reflective of and in tune with the vision and mission of the institution

VISION: Our College seeks to develop wisdom in students that translates academic achievement into responsible citizenship, sincere professional service and a deep respect for life and beauty in God's creation. MISSION: Our mission is to further the college in imparting technical education for students, while maintaining our traditions and culture. All staff shall inculcate in themselves humbleness, simplicity, honesty and uphold dignity towards higher learning and serving the mankind. The college shall strive to its best in producing excellent

engineers and managers who will be appreciated by industry and other sectors. OBJECTIVES OF THE COLLEGE: To achieve academic excellence in professional education and emerge as a center of excellence.

To strengthen the college/society in all academic aspects.

To encourage and support collaborative and cross program initiatives. To include high moral, ethical and professional standards among our students and improve their overall personality. To improve the communication skills of rural students by arranging special training programmes.

6.1.2 - The effective leadership is visible in various institutional practices such as decentralization and participative management.

The institution functions with the method of decentralized governance system. The head of the department has been bestowed with the authority of deciding the activities and delegating the responsibilities to the staff members. The department decides on timetable, subject allocation, purchase and maintenance of equipment and consumables, organizing conferences, symposia, guest lectures and workshops and recommends necessary industrial visits, in-plant trainings, internships and MOUs. The institution is functioning effectively with the culture of participative management which enables the faculty and students to give theiropinion and suggestions for improvement. All the academic activities are decentralized and decisions are taken based on discussion and deliberations in the class committee meetings, department meetings, faculty meetings, HODs' meetings with Principal and HODs meetings with Director. The Principal coordinates with the departments, administration and management. Participative management provides extensive scope for having collaboration among the departments and ensures the quality of planning and implementation of all the activities in the institution uniformly and as a team. Every year Academic Planner is prepared at the closure of the previous academic year.

Principal will convene the HODs' meeting. HODs, Training & Placement, Sr. Librarian and Head of Physical education will attend the meeting. The schedule of the following will be discussed and finalized in accordance with the schedule received from affiliating university.

6.2 - Strategy Development and Deployment

6.2.1 - The institutional Strategic/ perspective plan is effectively deployed

Over the past 21 years the college has shown tremendous growth. The institute possessing a perspective plan for the development. The College strives hard in achieving high standards of teaching, training, and development of human resources by encouraging its faculty and staff to work as a team and to update their knowledge and skills periodically to match the needs of industry. Provision of adequate annual budget is allocated as the part of the development plan. The aspects to be included in the perspective plan will be drawn from College level and Departmental level presented to the Governing Body which in turn ratifies expenditure and approves new budget proposals. Perspective Plan:

- To maintain continuously good academic performance
- To develop and execute effective teaching- learning process
- To encourage research culture in faculty and students
- To develop a comprehensive system of student mentoring and student support and ensure transparency in evaluation process of students
- To empower faculty about emerging trends in their profession for academic advancement
- To facilitate a friendly, efficient, and flawless administrative set up ensuring a smooth day to day functioning
- To make the Institute as a 'Center of Excellence
- To train the students to prepare them ready to face the competition at national and international levels.
- To obtain NBA accreditation for all the programs being offered in the institution

- **To secure accreditation by NAAC with good rating. More number of MoUs with Industries and Improving the Industry Institute relationship.**

6.2.2 - The functioning of the institutional bodies is effective and efficient as visible from policies, administrative setup, appointment and service rules, procedures, etc.

The system and stakeholders benefit from the management's openness. The Governing Body accepts responsibility for keeping track of how the initiatives in the institutional strategic plan are being carried out. Even though a few important objectives are quickly accomplished, the Governing Body, which consists of top management, the principal, HODs, teaching and non-teaching staff, students, and stakeholders, collaborates to strengthen the culture of excellence. The institute's motto, "We build a better Nation through Quality Education," ensures excellence in every area not only via its mission and strategies, but also through its many activities. The list of crucial actions is below.

Implementing contemporary teaching and learning strategies The HODs are keeping an eye on the processes and progress.

Examining the opinions of teachers, parents, and professionals Taking into account the aforementioned suggestions and upgrading services

6.3.5 - Institutions Performance Appraisal System for teaching and non- teaching staff

Response: Performance Appraisal System for teaching and non-teaching staff The institution has performance-based appraisal system for the assessment of teaching and nonteaching staff.

The appraisal report is based on the annual performance of the employees based on their academic, research and other extra-curricular activities. Performance appraisal system for teaching staff The performance of the faculty is evaluated based on professional contribution to academics, contribution to short-term training courses, performing invigilation duties, contribution to college administrative bodies such as college academic council, R&D council, planning and development committee, NBA, NAAC, etc. Student feedback and pass percentage of the course are also considered. Financial support to the faculty is rendered with the motive to enhance or upgrade their knowledge through their participation in conferences, workshops; publications in Scopus indexed journals, book publication, sponsored projects consultancy, research supervision, awards, honors, fellowships etc. Filled in theprescribed format is revised by HOD as well as Principal to assess the attitudinal/behavioral/professional aspects of the faculty concerned. Performance appraisal system for non-teaching staff: The various parameters for non-Teaching staff members are assessed under different categories i.e., Character and Habits, Departmental Abilities, Capacity to do hard work, Discipline, Reliability, Relations/Co-operation with superiors, subordinates, colleagues, students and public, efficient organization of documents and technical abilities (in case of workshop staff).

6.4 - Financial Management and Resource Mobilization

6.4.1 - Institution conducts internal and external financial audits regularly Enumerate the various internal and external financial audits carried out during the year with the mechanism for settling audit objections within a maximum of 200 words

Chirala Engineering College is an independent organisation that supports itself through student fees and income from its corpus fund. Deficits are handled by taking an advance from the parent trust. Faculty members can apply for more funding by submitting their research proposals. These funds are utilised for research and development in laboratories. The institute has a clear framework in place to monitor how well and effectively the available financial resources are being used to develop

infrastructure and academic procedures.

The accounting department develops the institution's budget each year while taking both ongoing and one-time costs into consideration. All administrative and academic officials are required to propose the necessary budget for the upcoming fiscal year. Along with this, all cell coordinators, including those for R&D, exams, T&P, NSS, etc., are told to turn in their budgets to the account office. The college's management team, the accounting department, and the principal make all of the important financial decisions.

As and when urgent requirements arise it is given after sanctioned revived from accounts office. All the major financial transactions are analyzed and verified under following sections:

- Training & Placement
- Software & Internet charges
- Research & Development
- Library Books / Journals
- etc...

6.4.3 - Institutional strategies for mobilization of funds and the optimal utilization of resources

Mobilization Fees Collections:

According to the Government of Andhra Pradesh's stipulated Higher Education regulations. 70% of students are admitted through counselling and 30% of applicants fall under category B.

Term Loan and Hire Purchase Loans:

By maintaining strong liquidity, DSCR, and Debt Equity Ratios and obtaining the loans through Banks, the Institute is able to obtain the aforementioned Loans from Banks at a lower rate of interest.

Non Government Bodies and Sponsorship Receipts:

For institutional activities, donations are received from well-wishers. businesses, people, and philanthropists.

Optimal Utilization/ Recurring Expenses:

Salary to staff, academic activities and payment of bank interest are done with fees collection.

Infrastructural development facilities and Building construction works:

The management allots funds for construction projects as well as for the creation and modernization of infrastructure facilities. For the same, prudent use is made of bank loans and corpus gifts from well-wishers and philanthropists.

The institute receives funding from AICTE for the purchase of

cutting-edge lab equipment, the most recent software, and other items. Grants are put to use.

Through hire purchase loans from banks, the college buys new vehicles based on student enrollment, and the loans are returned with lower interest rates from the reasonable transportation costs.

6.5 - Internal Quality Assurance System

6.5.1 - Internal Quality Assurance Cell (IQAC) has contributed significantly for institutionalizing the quality assurance strategies and processes

The IQAC is the most vibrant and highly active team in the institution whose motto is to maintain the quality culture. The IQAC team efficiently drives the institution to achieve the highest grade in its second cycle of assessment by setting up a very high benchmark. The team of IQAC comprises the Chairperson, Coordinators and the Representatives from the Management, faculty, administration, students, alumni, local society, and employers/industrialists/stakeholders.

The IQAC of the institution has taken several significant initiatives during the last year for prompting the quality on the campus:

- Efforts have been placed to get autonomous status to the college
- Enhanced the faculty development programs and activities
- Established the international collaborations with the support of research sponsoring agencies.
- Entrepreneurial activities increased
- Majority of the classrooms on the campus are upgraded with ICT equipment.
- Institutional Audits

IQAC implemented practices:

Practice 1: Automation in Academic and Administrative

functions:

Practice 2: Mentoring System

6.5.2 - The institution reviews its teaching learning process, structures & methodologies of operations and learning outcomes at periodic intervals through IQAC set up as per norms and recorded the incremental improvement in various activities

Content beyond the syllabus and Skill rack online programming:

The teaching learning process is continuously monitored and reviewed by the Head of the departments and reported to the Principal and the management. Apart from the regular class room lectures by the faculty members for each course, students are given opportunities to attend the guest lecture from industrial experts in the smart class rooms. The contents of this type of lecture are beyond the syllabus and they expose the industry requirement to the students. This lecture facilitates the students to know in depth about the industry requirement and the necessary skills they should equip with for placement. The interactions with industrial experts narrow down the gap between the institute and the industry requirement which helps the management in identifying the necessary soft skill development required for the students. Placement training through online tests by Skill rack is an online programming introduced by the management with a view to help the students for better placement. Faculty members are trained on the same before implementing it to the students. Skill rack is an initiative facilitated by IQAC with the support from Training and Placement cell. Guest lectures on content beyond the syllabus and Skill rack introduced by the management are the outcomes of IQAC which are well supported by the management.

INSTITUTIONAL VALUES AND BEST PRACTICES

7.1 - Institutional Values and Social Responsibilities

7.1.1 - Measures initiated by the Institution for the promotion of gender equity during the year

Chirala Engineering College is persistently nurturing the students as a community. The term "fair treatment for both women and men, according to their various requirements" is used to describe the gender equity. It may involve receiving unique treatment that is yet recognized identical in terms of rights, rewards, obligations, and opportunities.

Education is concerned with how people establish habits. If this is the case, then we must seriously consider how education

can promote the equal participation of men and women in decision-making, lessen the enrollment gap between men and women, provide equality in the learning experience, academic performance, and external results, and offer benefits to both genders.

If gender parity is fully attained, it will be benefited to the both boys and girls more than approaches that are oriented on men and girls will profit from thepublic and home life to the same extent as boys.

Chirala Engineering College is most concerned about the safety, security, well-being, as well as the gender parity and a pleasant work environment.

7.1.3 - Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste (within 200 words) Solid waste management Liquid waste management Biomedical waste management E-waste management Waste recycling system Hazardous chemicals and radioactive waste management

Solid Waste Management

The different colours of bins are placed at various places to collect dry and wet wastes separately to transport it to the concerned place. The garbage is used to generate organic manure for maintaining healthy environment.

Liquid Waste Management

The major liquid waste includes effluents from toilets and the laboratories. These are collected in the separate septic pits and allowed to settle into the soil. The water is filtered and used for greenery. No biomedical waste is generated on the campus.

E-waste management

The key objectives of Collecting e-waste are to divide the useable circuits and components and turning them into useful products. Moreover, staff members and laboratory assistants fix small equipment issues, while experienced technicians handle serious repairs.

Waste Recycling System

Waste water is generated in the campus include sewage, hostel and mess effluent waste. The entire water is used for watering the gardens and Sewage treatment plant used as manure for the gardens.

- The storm water runoff is diverted into the rainwater harvesting pond set up by the college.

Hazardous chemicals and radioactive waste management

- There are no hazardous chemicals used on the campus. No radioactive waste is generated on the campus.

7.1.8 - Describe the Institutional efforts/initiatives in providing an inclusive environment i.e., tolerance and harmony towards cultural, regional, linguistic, communal socioeconomic and other diversities (within 200 words).

Our college is founded with the noble cause of empowering students in rural areas, and continuously works to promote collaborative settings through promoting innovation and cutting-edge research. The under laying idea is to welcome all students, challenge them appropriately, and encourage them in their endeavours. As a result, the institution is a dynamic and interconnected community that serves as a home for aspiring and creative students from various socioeconomic and cultural backgrounds. Undoubtedly, Chirala Engineering College students are growing amicably despite the economic, cultural, social, and linguistic disparities.

The students in regular classes are fervent in their aloof quest of knowledge, and they discuss, dispute, and debate a wide range of academic, scientific, technological, and research subjects without ever losing sight of the element of harmony and solidarity. The institute shapes all facets of the students for a better future and profession by creating a realistic teaching-learning environment where education serves as a tool for social, economic, and cultural transformation. Students are sufficiently equipped for the complex nature of cultural and creative difficulties in their post-academic lives, cultural personality development programmes like Art of Living activities etc., are ongoing on campus.

7.1.9 - Sensitization of students and employees of the Institution to the constitutional obligations: values, rights, duties and responsibilities of citizens

Along with the usual academic programmes, Chirala Engineering College also arranges a number of extracurricular events aimed at moulding the students into responsible citizens. Since its foundation, the institution has demonstrated a strong commitment to its vision and mission along with its curricula that consistently incorporates academic and socio-personal

elements in order to provide a more humanistic approach to the students' professional and personal life processes.

The institution offers to the first and second year students many courses and motivational talks to sharpen their sensibilities because human values, professional ethics, and civic responsibilities have become an even greater part of one's success on a personal and professional front.

"The Constitution of India" course is also offered tosensitizethe studentsto the fundamental principles of the constitution.

A variety of serve-learn activities are included to the academic education in addition to the courses based on the AICTE model curriculum. Thus, the Women Empowerment Cell, the NSS Unit, the Universal Human Values & PAIE for mental & physical health, the Counselling Cell for various concerns that may emerge, and other bodies have all been incredibly effective in achieving the college's vision.

7.1.11 - Institution celebrates / organizes national and international commemorative days, events and festivals

India is one of the most ethnically and religiously diverse countries in the world, where people from many languages and cultures coexist together. On campus, people enthusiastically celebrate national holidays. Additionally, the institute places a high value on regional festivals and encourages everyone—students, teachers, and non-teaching staff—to celebrate them, regardless of their caste or religion.

The institution commemorates all national holidays. The following is a list of a few of the events:

Every year on campus, the institution hoists the American flag in honour of Independence Day. This is followed by the National Anthem, patriotic songs, and numerous appropriate events. The Republic Day is celebrated every year to honour the Indian Constitution. The statement from the chief guest is followed by patriotic songs, speeches, and tributes to all independence warriors. The organisation honours Dr. Sarvepalli Radha Krishnan, a revered educator and national philosopher, on The Teacher's Day which also happens to be his birthday. The college observes Mahatma Gandhi Jayanti on its campus each year in honour of and remembrance of the nation's father. The institution's departments all come together to commemorate Engineer's Day on September 15th, which is also Dr. Mokshagundam Visvesvarayya's birthday, in a big way.

7.2 - Best Practices

7.2.1 - Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual.

The institution's goal is to give students the education, preparation, and tools they need to excel as professionals in their fields. Any educational activity centres on the teaching and learning process. The entire teaching and learning process is challenged by the rapidly evolving nature of technology, the changing viewpoints of millennial students, and the introduction of a new generation of teachers. The main goal of this method is to improve learning delivery by training facilitators in better teaching and learning processes.

The Context:

Over the past few decades, there has been a paradigm shift in how we approach teaching. The focus has changed from being teacher-centered, where the student is merely a passive participant, to being student-centered, when the teacher only serves as a facilitator of the student's learning. Additionally, the teaching paradigm has been altered and disrupted by the rapid advancement of science and technology as well as the demands of the native millennial student population. Those who have recently started working as teachers typically include millennials. For the teaching-learning process to be effective and efficient in this environment, teachers must obtain adequate training.

7.3 - Institutional Distinctiveness

7.3.1 - Portray the performance of the Institution in one area distinctive to its priority and thrust within 200 words

The institution wishes to provide students with the necessary knowledge, skills, and training to enable them to become quality practitioners of their field. The teaching and learning process is central to any educational activities.

The institute has taken steps to guarantee those faculties are well prepared in teaching approaches since its establishment. In this sense, faculty development programs for teacher training are ongoing; resource people for these programs may come from national teacher training organizations or senior faculty members on campus. Teachers are occasionally offered the option to attend such programs off campus.

Senior professors provide orientation to freshly hired faculty members with less than two years of teaching experience at Chirala Engineering College. Participants are given the opportunity to practice teaching sessions as well as teaching approaches during the orientation program. All new members are encouraged to observe and participate in senior faculty classes' classroom activities.

ChiralaEngineeringCollegefirmlybelievesingivingitsstudentsevery opportunitytoadvancepastthestandardcurriculum.

Thepurposeofthispracticeistoofferallstudentsanadditionallearnin gopportunityduringthefour-yeargraduationprogramataverylowcost. In this regard, the institution has agreements with numerous reputable national and international organizations.
