REPORT

Name of the Programme: A Workshop on "Wireless Communication Technologies".

Date: 22-02-2022 to 24-02-2022

Details of Resource Person: Dr Ch Pavan Kumar
Assistant Professor,
Bapatla Engineering College, Bapatla.

Objective: To understand the need, role and scope of Probability Theory in wireless communications; to understand, analyze and realize different types of wireless channels; And also to have broader knowledge, on Multicarrier Modulation & Multiuser systems.

Topics Covered: Probability Theory, Random Variables, Random Processes
Wireless Standards
Statistical Multipath Channel Models
Performance of Digital Modulation over Wireless Channels
Multiple Antennas and Space-Time Communications,
Multicarrier Modulation & Multiuser systems

Outcome: Students, who attended the workshop, will be able to understand the relevance and relation of Probability Theory with Wireless Communications. The students become very fascinated to learn Wireless Communications. The students have understood the importance of Probability Theory.

Sub: Request for arrangements to conduct a workshop on "Composite Materials" -
reg.

Respected sir,

I am very thankful to you for giving me permission to conduct a workshop
on Composite Materials from 06/02/2023 To 11/02/2023.

So, I request to provide the following arrangements for the smooth conduction of program.

1. Conference Hall
2. Computer Lab
3. Transport facility

I express my sincere gratitude for your encouragement towards to conducting this
workshop

Date: 13-02-2023

REPORT

Name of the Programme: A Workshop on Composite Materials

Date: 06/02/2023 to 11/02/2023

Details of Resource Person: Mr. G. Rajeswararao
Associate Professor
SMGIG, rajeswararaogutti@gmail.com
MNo: 7989562746
Mr. P. Rajasekhar
Associate Professor
SMGIG, 6302387967
rajapusuluri@gmail.com

Objective: To expose the concepts of composite materials and their applications and To learn various hands on fabrication, testing and characterization techniques of composites..

Topics Covered: Fabrication, testing and characterization techniques of composite materials

Outcome: The student will be able to appreciate the utility of composite materials in the engineering field

No of Participants: 10

Programme Coordinator: Mr. M. Mothilal Nayak
Assistant Professor

REPORT

Name of the Programme: A Workshop on 5G COMMUNICATION

Date: 27/02/2023 to 02/03/2023

Details of Resource Person: Dr V Jayaprakasan
Professor
Sreenidhi Institute of Science and Technology, Hyderabad.

Objective: To understand the need for 5G Communication, its evolution, its requirements, standards and goals.

Topics Covered: Generations of wireless communications
Visions of 5G wireless
Background and context
Operators requirements on 5G
Standardisation
MIMO
Cooperative communication

Outcome: Students, who completed this workshop will definitely understand, the role of 5G Communication in Virtual Reality, low latency applications.

No of Participants: 26

Programme Coordinator: Mr. G.S.A.J Mani Kumar
Associate Professor
Chirala Engineering College

ABOUT THE INSTITUTION

The Chirala Engineering College was established in academic year 2001 by GSR & TSR Educational Society with a clear objective of providing quality technical education in tune with international standards and contemporary global requirements. The college is approved by All India Council for Technical Education (AICTE), affiliated to the JNTU Kakinada and recognized as the Jawahar Knowledge Centre (JKC) by the government of A.P. It is the first engineering college in Prakasam district to attain ISO:9001:2000 certification.

The 31 acre sprawling campus with lawns, gardens, playgrounds and a parking lot ensures the right academic ambience essential for a center of higher education.

Application of modern technology in teaching-learning process and effective day-to-day governance of the college makes CEC unique. Thus, within just 19 years of its existence, CEC has carved out a niche for itself as one of the leading engineering colleges in A.P.

ABOUT THE DEPARTMENT

Mechanical engineering is one of the oldest and broadest of engineering. It also called as Mother of the engineering because it plays a critical role in advancement of human civilization. Mechanical engineering deals with everything which moves. That involves with the design, analysis, testing, manufacturing, control, operation and maintenance of the mechanical systems. Mechanical engineering also deals with all aspects of conversion of thermal energy to useful work.

ABOUT THE PROGRAMME

The course offered a development of understanding of basic concepts of research, writing a research proposal, data collection tools, statistical analysis of findings, and use of computer to facilitate research

Quality research can contribute significantly towards development of a nation through various inventions and innovations. Considering the present scenario where the human kind is facing new challenges often, relevant and practical research has become more significant find feasible solutions. The 5-day Series aimed to provide knowledge about various statistical as well as non-statistical tools to analyze and interpret data so that valid generalizations can be drawn

LOCATION

The College is situated at Ramapuram Beach Road, Chirala. The distance approximately 4 km from Chirala and 15km from Bapatla.

Chirala, Prakasam District, Andhra Pradesh, India, Pin - 523157

Date: 27-09-2021

REPORT

Name of the Programme: A Workshop on Research Methodology for the Beginners

Date: 20/09/2021 to 25/09/2021

Details of Resource Person: Mr. A.Siva Naga Raju
Associate Professor
Chebrolu Engineering College, Chebrolu

Objective: Research objectives describe what your research is trying to achieve and explain why you are pursuing it. They summarize the approach and purpose of your project and help to focus your research.

Topics Covered: Research Problem
Data Collection, Analysis, Interpretation
How to write report
Paper Developing a Research Proposal
Format of research proposal

Outcome: Students who complete this course will be able to understand and comprehend the basics in research methodology and applying them in research/ project work. This course will help them to select an appropriate research design

No of Participants: 66

Programme Coordinator: Mr. M. Mothilal Naik
Assistant Professor
Chirala Engineering College
Mb. No: 6281159070
Email-Id: swamimothi@gmail.com

REPORT

Name of the Programme : A Workshop on Introduction to Low Power VLSI Design

Date : 25-03-2021 to 27-03-2021

Details of Resource Person(s) : Dr K. HANUMANTHA RAO
Prakasam Engineering College, Kandukuru.

Objective: The objective of the workshop is to have basic understanding of Low Power VLSI Design, need and demand for Low Power VLSI Design and the Challenges in Low Power VLSI Design

Topics Covered: Overview of Low Power VLSI Design
Introduction to EDA Tool
Concepts of Technology Scaling
Need of Low Power Devices
Power Reduction Methods
Parallel and Pipelined Architectures
Overview of Challenges in Low Power VLSI Circuit Design

Outcome: Students, who attended the workshop, have reached the objective of the Workshop. They understood the need of Low Power VLSI and its Challenges. They came to know different EDA Tools used in VLSI.

No of Participants: 81

Programme Coordinator: Ms. N. Hima Bindu
Assistant Professor

REPORT

Name of the Programme: A Workshop on "Career Guidance and Counseling"

Date : 07-02-2020

Details of Resource Person(s): Mr Karpurapu Udaya Bhaskar,
HR & ADMIN EXECUTIVE, ICICI Bank, Vijayawada

Objective: The objective of the workshop is to make the student aware of the current market / industry requirement and what should be our approach; also to gain knowledge over various career paths.

Topics Covered: Time Management and Prioritization
Basic Communication Ideology for Various Career Paths
Career Guidance on Software Industrial Trends
Career options and opportunities for ECE graduates
Personality Development skills & Job Opportunities
Awareness on Indian Engineering Services
Awareness on Indian civil Service

Outcome: Students, who attended the workshop, have enriched their knowledge on Embedded System and Real Time Systems, in such a way that they are very much enthusiastic to do a mini project on Embedded Systems immediately and they are planning to do their major project in Embedded and Real Time Systems domain.

No of Participants: 83

Programme Coordinator: Mr. T. Renu shya Pale
Assistant Professor
